### **SUNDT CONSTRUCTION ADDS PROJECT ENGINEER IN SAN ANTONIO**

**SAN ANTONIO** (July 24, 2018) – Sundt Construction, Inc. ([www.sundt.com](http://www.sundt.com)) has added **Sean Christopherson** as a Project Engineer to its San Antonio office.

Christopherson will serve as an engineer for the CPS Headquarters project in San Antonio. He will be the technical source of information for the project and serve as a liaison for owners, architects, subcontractors and suppliers.

“Sean has a distinguished resume serving in the United States Army for over 10 years, some of that time with the United States Army Corps of Engineers as a project engineer,” Sundt Senior Project Manager **Ben Martin** said. “That is where Sean got to know Sundt and we got to know him. Upon his separation from the Army, Sean reached out to Sundt because he was impressed with the way we ran our project. Sean proved himself to be an exceptional leader while in the Army and he is a great addition to the Sundt team.”

Christopherson joins the company after serving as a senior project engineer with the U.S Army Corps of Engineers. He managed a six-personnel project office providing quality assurance, quality control checks and contract compliance of military construction projects valued over \$120 million in the Monterey, Calif. area.

Christopherson, a former captain in the United States Army, holds a bachelor’s degree in industrial technologies and management from Illinois Institute of Technology. He earned two master’s degrees, one in engineering management from Missouri University of Science and Technology and a second in systems engineering from Naval Postgraduate School.

#### **About Sundt**

Sundt Construction, Inc. ([www.sundt.com](http://www.sundt.com)) is one of the country’s largest and most respected general contractors. The 128-year-old firm specializes in transportation, industrial, building and concrete work

and is known for its commitment to quality and innovative approach to construction services. Sundt has 11 offices throughout Arizona, California, Texas and Utah and is 100 percent owned by its approximately 2,000 employees. Sundt currently is ranked the 65th largest construction company in the United States by ENR, the industry's principal trade magazine. The company is consistently ranked among the Best Places to Work by business publications in multiple cities and it was named the nation's safest construction company by the Associated General Contractors of America twice in a decade – an honor no other contractor can claim. Sundt's charitable arm, the Sundt Foundation, recently crossed the \$8.6 million mark in donations made to hundreds of nonprofit organizations across the country.
