

SUNDT

Skill. Grit. Purpose.®

THE COMPANY

Sundt Construction, Inc. is one of the country's largest and most respected general contractors. The 132-year-old firm specializes in transportation, industrial, building, concrete and renewable energy work and is owned entirely by its approximately 2,000 employee-owners. Sundt stands apart for its diverse capabilities and experience, unique employee-ownership culture and depth of self-perform expertise in nine major trades. Half of Sundt's workforce is composed of skilled craft professionals who, together with the company's administrative employees, enable Sundt to fulfill its mission to be the most skilled builder in America. Sundt has 11 offices throughout Arizona, California, Texas, North Carolina, Oregon and Utah and is currently ranked the country's 61st largest construction company by ENR, the industry's leading trade magazine.

SUNDT

Skill. Grit. Purpose.®

SUNDT HIGHLIGHTS

Safety

By emphasizing good safety choices and providing immediate recognition to those who make them, our safety program is designed to support and maintain a positive safety culture while improving Sundt's overall safety record. The Associated General Contractors of America recognized Sundt with the Grand Award in both 2006 and 2016. The firm earned the award because of its exceptional leadership in safety.

Sustainability

Sundt is a leader in sustainability, ranking among the topmost sustainable large contractors in the country, both in terms of its approximately 76 LEED projects (including 17 LEED Platinum® buildings) and its nearly 200 LEED-accredited professionals. Sundt is an Envision Qualified Company, and earned the first Envision Gold award for work on the Southeast Treatment Plant New Headworks Facility Project owned by the San Francisco Public Utilities Commission. Sundt serves as an example to our industry and the country by integrating environmental awareness and responsibility throughout our company and for our clients.

Technology

Sundt is at the forefront of new technologies and approaches that are revolutionizing construction. The firm uses Building Information Modeling (BIM), Virtual Design and Construction (VDC), laser scanning, drone technology and more. A continued commitment to innovation is part of our corporate culture, and what makes us one of the nation's most cutting-edge contractors.

Award-Winning

Sundt builds a variety of both public and private projects throughout the United States. The company has won 27 Build America awards from the Associated General Contractors of America, most recently for the GO-10 collector-distributor lanes in El Paso, Texas. Other notable recent award-winning projects include Sellwood Bridge in Portland, Oregon, the San Pedro Creek Improvement Project in San Antonio, Texas, San Diego International Airport Terminal 2 Landside Modifications, Biomedical Sciences Partnership Building in Phoenix, Arizona, the West 7th Street Bridge in Fort Worth and more.
